Re: Notice of Plant Closing of Columbus Components Group, LLC Facility located at 2050 15th Street, Columbus, IN 47201

Dear Ms. Long:

By way of follow-up to CCG's prior letters of February 9, 2009 and March 23, 2009, and as a result of recent unforeseeable circumstances, including but not limited to the decision by a major customer to remove work from the facility and the Company's loss of banking credit lines, CCG will be terminating its operations, located at 2050 15th Street, Columbus, IN 47201. CCG will fulfill any and all bargaining obligations with the Union concerning this plant closing. This plant closing will be permanent and will result in a complete closing of the facility. The initial group of personnel separations will occur during the two week period beginning on June 30, 2009. At this time it is projected that the final date for personnel separations will occur during the two week period beginning on July 31, 2009. The closing will affect all union and non-union positions within the plant, and will affect approximately 215 employees.

There is union involvement in this decision, and bumping rights exist. The name of the union involved is the I.B.E.W. Local 1424. The chief elected officers for the union are:

Jeff Carter
International Union President
